Non-urgent campground questions:

- Call your friendly Campground Manager Sue Morrison M-F 9am-5pm at 402-441-1823
- Visit the General Store in Pavilion 2 if open

Also welcome to visit General Store in Pavilion 2 if open, or talk with any LEC Operations Crew in LEC grey shirt or hat.

## Severe Weather

During severe weather you can monitor the local radio station 103.3 FM or 1240 AM, [www.1011now.com](http://www.1011now.com) or Channel 10/11 News local TV station.

Lancaster Event Center is located in the NE corner of Lancaster County.

It is suggested to travel with a NOAA weather radio to receive quick notification of weather watches and warnings. Lancaster County is served by WXM20 (162.475 MHz), which operates 24 hours per day, and seven-days per week.

Smartphone weather applications like the Weather App are recommended.

## Warning Siren System

There is a warning siren on Lancaster Event Center grounds at Gate 3, and it is connected to the other warning sirens located throughout the county. The entire group of sirens in the county can be activated and are used to alert the public to an imminent threat.

If you hear the emergency sirens activated, take shelter in the showers located in the Multi-Purpose Arena (MPA). Lancaster Event Center monitors the weather, and if time allows, safe passage will assure the MPA is unlocked. Attempts to notify you of impending weather will be made, however it is your responsibility to get yourself, family and guests to shelter by monitoring incoming weather. Walmart is the next closest facility that is open 24/7. If you run out of time to get to a shelter, local emergency authorities recommend getting inside your vehicle and securing each person in a seatbelt.
